SCREW CONVEYORS

Efficent, Quality and Aesthetic Products Enriching Your Facility

ABOUT US

ED-VAN with experienced technical staff offers service in the solution of de-dusting and ventilation problems.

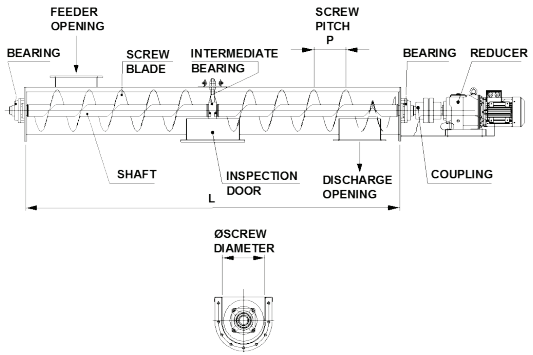

For a solution of your problems, exploration, project designing, manufacturing, installation and start-up processes are carried out under the responsibility of our company.

All products in ED-VAN are designed and manufactured in its manufacturing plant by its own technical team.

In 1975, the manufacturing facility of ED-VAN was established on a 19.500 m^2 area, and an 8.000 m^2 enclosed area is actively used for manufacturing purpose.

Also all equipment and systems manufactured in ED-VAN manufacturing plant meet the requirements of environmental regulations. ED-VAN products are used in all areas of industry and manufactured consciously by considering consumer protection accordance with the national and international standards and norms.

TECHNICAL DATA

Screw Conveyors are used for;
Moving, mixing, drying, and cooling of bulk materials.
